

Installation Instructions

INSTRUCTIONS PERTAINING TO A RISK OF FIRE, OR INJURY TO PERSONS.

IMPORTANT SAFETY INSTRUCTIONS. SAVE THESE INSTRUCTIONS.

(Failure to follow the warnings and instructions on this sheet could result in fire, injury, failure of product, and/or voiding of warranty.)

1. Do not touch luminaire while lamp is on. Turn off/unplug and allow to cool before replacing lamp.
2. Lamp gets HOT quickly! Contact only switch/plug when turning on.
3. Do not touch hot luminaire or mount option.
4. Keep lamp away from materials that may burn.
5. Do not touch lamp at any time. Use a soft cloth. Oil from your skin may damage lamp.
6. Do not operate the luminaire or mount option with damaged or missing parts.
7. Do not disassemble mount option.
8. Do not install luminaire within 10 feet of a pool, spa, or fountain.
9. Have luminaire and mount option installed in accordance with all applicable installation codes and standards by a person familiar with the construction and operation of the fixture and the hazards involved.
10. For use with low voltage lighting fixtures and remote transformers only.
11. Use only cable rated for low voltage. Cable buried more than 6" must be suitable for direct burial. Direct burial cable may be ordered from Vision3 Lighting.

Installation

Mounting Luminaire

1. Feed the two leads of the Luminaire thru the mount hole in the Canopy.
2. Insert the Luminaire knuckle into the Canopy mount hole.
3. Feed the two leads of the Luminaire thru the Lock Nut.
4. Tighten the Lock Nut to attach the Luminaire to the Canopy.

Electrical Connections

1. Feed the Low Voltage Supply Cable through the Wiring Hole on the bottom of the Canopy.
2. Attach the Low Voltage Supply Cable to the Luminaire leads by using watertight connectors. Note: Check that the Luminaire and supply cable are rated for the supply power.
3. Tuck all wiring and connectors into the Canopy.

Final Mounting

1. Position the Canopy on the Tree so the Luminaire is aimed in the desired direction.
2. Mount the Canopy to the Tree using Nails or Screws sized appropriately for holding the weight of the Luminaire and Canopy to the Tree.
3. Secure the Low Voltage Supply Cable to the Tree.
4. Inspect all wiring connections.
5. Connect to low voltage source power.
